Proposition 218 Notice

EID is proposing a 35% rate increase on water, wastewater, and recycled water services in 2010, a 15% increase in 2011, and a 5% increase each year from 2012 through 2014.

The three charts located on page 5 of the Proposition 218 notice show what this means in 2010 for residential water customers with low, medium, and high water use. The fourth chart indicates the average residential sewer bill in 2010 under the proposed rates. The charts also compare EID's current and proposed rates with several other agencies in the region. NOTE: The numbers in the charts are for two-month bills. Monthly bills are half of what is shown.
